

Jessica Ventimiglia, '99
San Antonio Village, Belize

BELIZE - SAN ANTONIO VILLAGE
- Toledo District - Jessica Ventimiglia '98
- CENTRAL AMERICA -

- During my stay I lived in Bel's "Hill Top Hotel".
Across the street was the primary school as well
as the health clinic. I helped teach various
grade levels in all of the basic subjects. While teaching,
I met many of the children of the village. This was
the Standard III class I taught?

- I also volunteered in the health clinic. There was children's clinic, mobile clinic, regular outpatient and prenatal clinic on various days of the week. Each week we went on mobile clinic to the more remote villages that did not have any access to medical facilities. We identified symptoms, diagnosed and dispensed medication as well as gave immunizations to the children.

- During our stay, we made many friendships. The Cho family became our close friends. We always played with and loved the children. They invited us for dinner during one of our last nights in Belize!
