

Academic Assessment Report: Review

Name of Program: _____

Date: _____

Area	Considerations	Comments
Program Student Learning Outcomes	Are the outcomes clearly stated?	
	Are the outcomes measurable?	
	Are the outcomes college appropriate (level of study)?	
	Points for reflection (skill based outcomes, affective outcomes)	
Assessment Criteria	Is the assessment criteria clearly stated in terms of student expectations?	
	Is the assessment criteria rigorous?	
Assessment Procedures	Is each assessment method clearly described?	
	Is each assessment method clearly linked to the SLO?	
	Is the assessment useful for evaluating student achievement of the outcome?	
	Are multiple assessment methods being used to assess the outcomes?	
Assessment Results	Is the evidence of student learning that has been collected clearly linked to expected learning outcomes?	
	Do the assessment results give an indication of program quality?	
Use of Results	Are assessment results thoughtfully discussed within the assessment report?	
	Are the assessment results used to make well-defined changes that will improve the program? <i>This would include changes that improve SLO statements, assessment methods, reconsideration of criteria, changes in curricula, etc.</i>	
	Is there an obvious connection between the changes made and the assessment results?	

Area	Considerations	Comments
Impact of changes	When program changes have been made and assessments are cyclic, does the report describe how the implemented changes impact student learning or program outcomes?	
Assessment Stage	Is the assessment process being used for program improvement, or simply to affirm program quality?	
	Have assessment results been used for planning, budgeting and decision making?
